### REMARKS.

Ganges Canal.—Mean volume of water passing through Solani aqueduct ... Cub. ft. per sec. 4,593

Volumes discharged :— Cub. ft. per sec.
Cawnpore Division Tail ... 264
" " Escapes ... 337
Etawah " Tail ... 38
" " Escapes ... 187
826

Balance expended ... 3,767

In all divisions demands were small up to the 15th, when rain fell generally and they ceased.

Eastern Jumna Canal.—Demands fair up to the 17th when the canal was closed for repairs.

Dun Canals.—No remarks.

Rohilkhand Canals.—No remarks.

Traffic.—Compared with the corresponding period of last year, these returns show a general decrease attributable in the main to heavy rains towards the end of the month. In the grain consignments there is a large increase, the bulk of which was upwards for Meerut. Compared with last month's traffic, grain has fallen off by nearly one half the quantity.

Allahabad,
*The 25th March* 1875.

## OFFICIAL PAPERS.

*A* SUPPLEMENT *to the* GAZETTE OF INDIA *will be published from time to time, containing such Official Papers and information as to the Government of India may deem to be of interest to the Public, and such as may usefully be made known.*

*Non-Subscribers to the* GAZETTE *may receive the* SUPPLEMENT *separately on a payment of six Rupees per annum if delivered in Calcutta, or nine Rupees if sent by Post.*

*No Official Orders or Notifications, the publication of which in the* GAZETTE OF INDIA *is required by Law, or which it has been customary to publish in the* CALCUTTA GAZETTE, *will be included in the* SUPPLEMENT. *For such Orders and Notifications the body of the* GAZETTE *must be looked to.*

GOVERNMENT OF INDIA.

### PUBLIC WORKS DEPARTMENT.

### IRRIGATION AND RAILWAY PROJECTS IN NORTH BEHAR.

Nos. 119-21 I., dated Simla, the 27th April 1875.

RESOLUTION—By the Government of India, P. W. DEPT.

Read again—

Public Works Despatch to the Secretary of State, No. 164 R., dated 14th November 1874, and enclosures.

Read also the following reply:—

No. 21 P. W., dated 11th March 1875.

From—The Secretary of State for India,
To—The Government of India.

I have perused with much interest the Resolution of your Government, copy of which accompanied Your Excellency's letter No. 164 of 14th November last, on the subject of railway and irrigation works for the tracts north of the Ganges, recently afflicted by scarcity.

2. This document is of the more importance as exhibiting the views of your Government in regard to the proper mode of dealing with projects for railways and canals designed for the prevention or mitigation of famine, and I have much pleasure in signifying my cordial concurrence in the opinions expressed.

3. The immediate object, as Your Excellency points out, is "not to bring waste lands into cultivation or to increase the wealth of the country by improving the present means of communication," but to guard as much as possible against a recurrence of such disasters, both to the people and the State, as resulted last year and previously in the year 1865-66 from failure of rain and consequent failure of the principal food-crop of extensive tracts of country. Although, too, irrigation works alone can prevent such evils, improved lines of communication afford the best means of alleviating them when they occur, as, in spite of the utmost precaution, they everywhere may, and therefore, however desirable it be that some at least of the more imminently threatened districts should be protected from drought by irrigation works, it is even more essential that all of them should, as you say, be "brought into nearer communication with the main arteries of trade."

4. With only limited funds at command, however, it is impossible for the Government to supply these desiderata except very gradually, and too much caution cannot be exercised in selecting the works to be undertaken, nor too much stress laid on the necessity of rigid economy in their construction. The principles which should govern the choice are clearly set forth in the Government Resolution, where I note with particular satisfaction what is said in favor of multiplying wells and tanks, and of utilizing nullahs, in preference to the too exclusive elaboration of grand schemes on the scale of those in Orissa and elsewhere, and also the intimation given to the officers charged with the preparation of a railway scheme for connecting Mozufferpoor and Durbungah with the Ganges, that they will be expected to be upon "their mettle to design the cheapest railway that has yet been made in India, both as regards construction and working."

5. The railway in question is apparently the only project of magnitude the early execution of which is distinctly contemplated by the Resolution. Before being undertaken, it will of course be submitted for the sanction of Her Majesty's Government. Surveys, however, have, I observe, been ordered, with a view to the construction in Sarun and Ghumparun of inundation canals in connection with the recently authorized embankments of the Gunduck, and of minor irrigation works in Ramnugger and elsewhere, and I shall await with interest a report upon the results of these surveys.

---

ORDER.—Ordered, that a copy of the foregoing be forwarded for information to the Government of Bengal in the General and Irrigation Departments, and also that a copy be forwarded to the Home Department for publication in the Supplement to the *Gazette of India*.

GOVERNMENT OF INDIA.

# PUBLIC WORKS DEPARTMENT.

## RECENT ACCIDENTS ON THE NORTH-WEST LINE OF THE MADRAS RAILWAY.

The following papers relating to the progress made in repairing the damaged bridges on the Madras Railway are published for general information in continuation of the papers published in the Supplement to the *Gazette of India* of 5th December 1874.

No. 159, dated Madras, 19th March 1875.

From—Lieutenant-Colonel J. H. M. SHAW-STEWART, R. E., Consulting Engineer for Railways,

To—Colonel G. W. WALKER, R. E., Secretary to Government, Madras, Public Works Department.

I have the honour to report, for the information of Government, that the operations in progress for the repair of the damaged bridges on the North-West Line were inspected by me during last week in company with the Chief Engineer of the Madras Railway.

2. At the Cheyair the work is well advanced. The embankment in the centre of the river has been restored, with both abutments; and of the four masonry piers which failed in the north portion of the bridge three have been replaced with screw piles. At the site of the fourth pier the bed of the river was found to be so much encumbered with old masonry as to render the screwing of piles almost impossible, and it has been necessary to alter the design and to construct the new pier of masonry resting on wells nine feet in diameter and carried down to a depth of 35 feet. The bricks for these wells are ready, and the work is now in progress. At the pier which failed in the south portion of the bridge, the clearing away of the old foundation has been attended with some trouble on account of the compactness of the masonry and the quantity of water in the river; but the work is making steady progress, and the new foundations will soon be got in.

3. At the Chittravatty the work is also well advanced. At this river nine of the masonry piers failed, and they are being replaced by ten piers formed with screw piles. Of these nine are now completed, and in the tenth pier all the piles are screwed into position

with the exception of one which came in contact with a large block of masonry about nine feet below the bed of the river. The removal of this obstruction has caused some delay, but I trust that all the piers will soon be ready to receive the girders.

4. At the Paupugnee little has been yet done beyond getting all the material into position. The work here consists solely of forming new piers with screw piles in the positions occupied by those which were carried away, and it was thought advisable to concentrate the whole available labour on to the Chittravatty bridge in the first instance, as greater difficulties were anticipated there. The large gangs of trained labour will now be brought to the Paupugnee, where it is expected that the construction of the new piers will soon be pushed through.

5. At the Pennair it has been found necessary to modify in some particulars the mode originally proposed for reconstructing the two piers which failed. The river bed was found to be encumbered with old masonry to such an extent as to render it impossible to support the girders temporarily, as was proposed, upon screw piles. The difficulty of dealing with this bridge is increased from the fact that the traffic over it has not been diverted, as in the other cases, to a temporary road laid across the river bed; and it is therefore necessary to provide for the repair of the piers without interfering with the passage of trains over the bridge. The obstructions which have been come upon unexpectedly in the river bed, and which prevent the screwing of piles, render the progress of work under these conditions a matter of considerable difficulty. A revised method of supporting the girders during the operation of building the piers has now been adopted, and this is shown in the accompanying plan. Another modification in the original design which it has been found necessary to introduce, is the substitution of well foundations for solid ones in rebuilding the two piers. This change is due to the depth of sand, 15 feet, overlying a solid substratum. The wells will be 9 feet in diameter, and bricks for the purpose are now being conveyed to the bridge.

6. Adverting to the letter from this office, dated the 8th instant, No. 145,* I have the honour to report that, unless unforeseen difficulties occur, the completion of the repairs to the Cheyair, Chittravatty, and Paupugnee bridges may be looked for during April. The extent of the progress made towards the reconstruction of the damaged piers is explained above, and in each case the necessary girder material is on the ground, and the girders are being rapidly rivetted and got ready.

* G. O. No. 784, dated 20th March 1875.

7. It is more difficult to name the date when the repairs to the Pennair bridge will be finished. The obstructions found in the river bed have retarded the work very considerably, but I am still in hopes that the repairs will be completed, or nearly so, by the end of May. The Government may rest assured that every effort to attain this object will be made by the Railway officers.

8. The unusual amount of water in the beds of the Chittravatty and the Pennair has made it impossible to make any examination as yet of the pier foundations, and this must in all probability be postponed for another month.

---

No. 949, dated 10th April 1875.

Order thereon by the Madras Government.

His Excellency the Governor in Council is glad to find that steady progress is being made with the restoration of damaged bridges on the Madras Railway. Difficulties met with in the execution of the work have been overcome by what appear to be judicious modifications of the original designs. The completion of the repairs to the Cheyair, Chittravatty, and Paupugnee may, it is stated, be expected during April, while the Pennair bridge will probably be ready by the end of May.

2. His Excellency the Governor in Council accepts the assurance given that every effort will be made by the railway officers to ensure the completion of the work by the time specified.

| | | | | | | | | | | | | | | | | | | | | | | Nut ... ... 1 |
| | | | | | | | | | | | | | | | | | | | | | | Total ... 3,279 |
| | | | | | | | | | | | | | | | | | | | | | | (b.) The details are— |
| | | | | | | | | | | | | | | | | | | | | | | Acres. |
| | | | | | | | | | | | | | | | | | | | | | | At the rate of Rs. 4 ... 1 |
| | | | | | | | | | | | | | | | | | | | | | | Ditto „ 2 ... 16 |
| | | | | | | | | | | | | | | | | | | | | | | Ditto „ 1-8 ... 1,743 |
| | | | | | | | | | | | | | | | | | | | | | | Ditto „ 1-6 ... 12 |
| | | | | | | | | | | | | | | | | | | | | | | Ditto „ 1 ... 10 |
| | | | | | | | | | | | | | | | | | | | | | | Ditto annas 10 ... 4 |
| | | | | | | | | | | | | | | | | | | | | | | Total ... 1,786 |

* The difference between this and the last month's statement is due to 17 acres having been inadvertently included in column 10 instead of column 16 in last statement.

† These canals were closed for repairs during the greater part of the month

G. A. SEARLE, *Lieut.-Colonel, S. C.,*
*Offg. Asstt. Secretary to the Government of Bengal,*
*Public Works Department, Irrigation Branch.*

*The 21st April* 1875.
